● ABOUT ME

Innovative Full Stack Developer with 10 years of experience delivering high-impact web solutions across diverse industries. Expertise in designing, developing, and rigorously testing web applications, leveraging a broad spectrum of technologies to meet organizational goals. Adept at translating complex requirements into seamless, user-friendly digital experiences, driving both functionality and aesthetic excellence.

● WORK EXPERIENCE

01/03/2023 – CURRENT Dresden, Germany

WEB APPLICATION DEVELOPER UNITEDPRINT.COM SE

- Experienced in integrating eCommerce solutions with the printing industry, optimizing online workflows, and enhancing customer engagement through seamless digital platforms.
- Wrote clean, testable, and efficient code using React JS, Redux, TypeScript, JavaScript, Next JS etc.
- Utilized React Hooks exclusively for managing application life cycle operations.
- Collaborated effectively within an international team, and adept at organizing, prioritizing, and coordinating team activities.
- Experienced in working with CI/CD tools, Sentry, Docker, Jira, Git, Bitbucket and Confluence.
- Worked closely with cross-functional teams, including designers, backend developers, and QA specialists, to deliver high-quality and feature-rich solutions.
- Engaged in code reviews to maintain quality and ensure compliance with development standards.
- Proficient in task decomposition and estimation, driving project success through detailed task breakdowns and accurate resource planning.
- Experienced in bug fixing and test writing using React Testing Library, Jest and Enzyme etc., ensuring high-quality code through effective debugging and comprehensive test development.
- Participated in release testing of products prior to production.

07/09/2020 – 28/02/2023 Kochi, India

SENIOR SOFTWARE ENGINEER BEO SOFTWARE PRIVATE LIMITED (UNITEDPRINT.COM SE)

- Participated in all aspects of agile software development life cycle including design, implementation and deployment.
- Communicated with product managers and designers to understand the business context, and translated the requirements into technical solutions.
- Participated in peer code reviews and manage criteria applied during code reviews.
- Exclusively used React-Hooks to handle application life-cycle processes.
- Familiarised with RESTful APIs, GraphQL and authorization mechanisms (JWT).
- Collaborated with an international team to organize and prioritize activities effectively.
- Participated in meetings with the customer.
- Experienced with building responsive web application.
- Built re-usable code and libraries for future use.

20/02/2019 – 04/09/2020 Kochi, India

SENIOR SOFTWARE ENGINEER CASCADE REVENUE MANAGEMENT

- Skilled in logistics and resource management, with a focus on optimizing supply chain operations, improving efficiency, and effectively managing resources to meet business objectives.
- Wrote new and well-tested code for different software projects using Angular JS, Node JS, React JS and Python - Django.
- Translated agile requirement specifications from user stories and use cases into proper software components independently.
- Worked closely with other team members to identify and remove software bugs.
- Delivered optimal code by testing, debugging and documented the software components.

SOFTWARE ENGINEER CITRUS INFORMATICS (INDIA) PVT LTD

- Experienced in managing projects across media, news, healthcare, and eCommerce sectors, with a focus on delivering innovative digital solutions, enhancing user engagement, and optimizing operational efficiency.
- Worked closely with other developers, UX designers, business and systems analysts to create a cohesive finished product.
- Integrated data from various back-end services and databases.
- Handled customer queries and issues and provided impeccable customer service.
- Documented features, technical specifications & infrastructure requirements.

WEB DEVELOPER ACESYS TECHNOLOGIES

- Development of new features and improvement of the existing software applications.
- Performed the responsibilities of implementing and hosting applications on a web server.
- Experienced with improving the website performance with the page speed insights and GTMetrix tools.
