SUMMARY

Accomplished senior software engineer with 14**+ years** of experience in the full software development lifecycle, specializing in **analysis**, **design**, and **implementation**. I have demonstrated the ability to independently lead and deliver projects, including financial and administrative systems, brokerage solutions, and cryptographic subsystems in both **Windows applications** and **web applications**. I am committed to aligning my efforts with company objectives and enhancing team performance.

WORK EXPERIENCES

Jun 2018 - Present
At:
**Pouya Andishan Rassam Rayan
Tehran, Iran**

Senior Software Developer

We have developed a comprehensive suite of systems, subsystems, and services to provide to brokerage back-office solutions on both the Windows and web platforms.
We have developed these systems using the C# programming language and the SQL Server 2017 database, which include .Net API and WCF Services, to migrate data.

Aug 2014 - Apr 2018
At:
**Tadbir Pardaz IT Group Ltd.
Tehran, Iran**

Senior Software Developer

We have employed Agile methodology to develop a web application system for brokerage solutions, using the MVC ASP.Net programming language and SQL Server 2014 database.
We have developed a financial system for Windows applications using the C# programming language and SQL Server 2008 database.

Feb 2009 - Jan 2012
At:
**Asa Fanavaran Royan
Tehran, Iran**

Software Developer

We have developed a Windows-based program using C# and SQL Server 2008, streamlining administrative tasks, and optimizing workflow automation.

Sep 2002 - Jan 2009
At:
**Fadak Software Producer Co.
Tehran, Iran**

Software Developer

We have developed a Windows-based program using VC++ and Oracle, streamlining administrative tasks, and optimizing workflow automation.

EDUCATIONS

2012 - 2014
