

Joy

SENIOR FULL STACK DEVELOPER

Bertrix, Belgium

Summary

Accomplished Full Stack Developer with extensive experience in both frontend and backend technologies, including React, Next.js, React Native, Vue.js, Laravel, and Django. Known for delivering high-quality web and mobile applications that prioritize performance, scalability, and user experience. Dedicated to embracing new challenges and staying ahead of industry trends through continuous learning and innovation.

Experience

COCOMORE AG | Senior Full Stack Developer

2020.5 - 2024.6

Skills: React, Next.js, React Native, Vue.js, Rust, Golang, RESTful APIs, GraphQL, AWS, Docker, Git, PWA, Offline Web Development, Microservices, Kafka, RabbitMQ, gRPC

- ✦ Engineered state-of-the-art web applications leveraging React and Next.js, optimizing SEO and enhancing user engagement through server-side rendering techniques.
- ✦ Led the design and implementation of cross-platform mobile applications using React Native, achieving seamless functionality across iOS and Android devices.
- ✦ Architected frontend applications with Vue.js, integrating with Rust-based backend systems to create cohesive and scalable solutions.
- ✦ Developed sophisticated backend services using Golang, focusing on creating RESTful APIs and implementing GraphQL for complex data operations.
- ✦ Orchestrated the deployment of applications on AWS, utilizing Docker for container management and ensuring robust, scalable infrastructure.
- ✦ Oversaw version control and team collaboration using Git, contributing to a culture of peer reviews and continuous code improvement.
- ✦ Developed Progressive Web Apps (PWAs), ensuring enhanced performance, offline capabilities, and an app-like user experience on the web.
- ✦ Implemented offline web development strategies, leveraging service workers and IndexedDB to provide a seamless user experience even without an internet connection.

ANYFORSOFT | Full Stack Developer

2017.8 - 2019.11

Skills: React, Vue.js, Angular, Golang, PHP, .Net, JavaScript, Java, MySQL, GCP, Redis, GitLab CI/CD

- ✦ Extended full-stack development expertise by incorporating Angular to build dynamic and interactive front-end user interfaces.
- ✦ Implemented Java-based backend solutions, enhancing application performance and scalability to meet enterprise-level demands.
- ✦ Played a pivotal role in full-stack development projects, integrating React and Vue.js frontend frameworks with Laravel backends.

- ✧ Enhanced database performance and query optimization through the adept use of MySQL and implementation of Redis as a caching layer.
- ✧ Established and maintained GitLab CI/CD pipelines, significantly improving the team's deployment frequency and code quality.
- ✧ Actively participated in the Agile development process, contributing to sprint planning, daily stand-ups, and retrospectives.
- ✧ Implemented automated testing strategies, ensuring high application reliability and facilitating a test-driven development (TDD) environment.
- ✧ Designed and deployed scalable and secure cloud-native applications on Google Cloud Platform (GCP), leveraging its managed services and infrastructure

STANGA1| Junior Web Developer

2015.5 - 2017.4

Skills: Django, React, Ruby, Bootstrap, REST APIs, Git

- ✧ Contributed to the development and maintenance of dynamic web applications, utilizing Django for backend services and React for frontend interfaces.
- ✧ Employed Bootstrap to create responsive and accessible designs, enhancing user satisfaction and accessibility across multiple devices.
- ✧ Integrated RESTful APIs into React applications, enabling dynamic content updates and real-time user interactions.
- ✧ Collaborated with cross-functional teams to deliver features that met business requirements and user needs.
- ✧ Adopted Git for version control, improving source code management and enabling effective team collaboration on complex projects.

BULBERA | Junior Software Engineer

2014.4 - 2015.5

Skills: Python, JavaScript, HTML, CSS, jQuery

- ✧ Supported various web development projects, gaining foundational experience in both frontend and backend technologies.
- ✧ Assisted in building user interfaces with HTML, CSS, and jQuery, developing a keen eye for detail and design aesthetics.
- ✧ Participated in backend development tasks using Python, learning server-side programming concepts and best practices.
- ✧ Engaged in the software development lifecycle, from requirement gathering and coding to testing and deployment.
- ✧ Collaborated with senior developers, acquiring knowledge in modern development frameworks and tools.

Education

University of Ghent, Bachelor of Computer Science

2010 - 2014

Major: Computer Science

Ghent, Belgium

Skills & abilities

- **Front-end**
React/Next, Vue.js and React Native
- **Back-end**
Django, Laravel.
- **Database**
MongoDB, MySQL, PostgreSQL, MariaDB, Firebase
- **Additional Skills**
Jest/Mocha, Jira/Trello, GitHub/Bitbucket, AWS, CI/CD, Strip

Language

- **English:** Proficient
