

Eng. Mohammed Al [redacted]

Nationality: Syrian **Date of birth:** 29/06/1996

Home: Damascus (Syria)

ABOUT ME

Software Engineer | Master Degree in Web Science | Team Lead && Full Stack Web Developer (php Laravel & Vue.js & React.js & Next.js & Nuxt.js & Nest.js && DevOps(CI/CD))

WORK EXPERIENCE

Senior Full Stack Web Developer

Neuroflash - Germany [12/2022 – Current]

Website: <https://neuroflash.com/>

- Designed and implemented scalable and efficient server-side systems and APIs for Neuroflash, serving over 1m and 100k customers.
- Collaborated with cross-functional multinational teams to develop new features, maintain existing codebases, and optimize system performance. Participated in code reviews and contributed to improving development processes and practices.
- **Technologies Used:** Laravel 8/9/10, Docker, Elasticsearch, MySQL, React.js, Domain-Driven Design (DDD), Nest.js, OpenAI API, DB Query Optimization, Performance, Segment, AVO, BigQuery, Data Warehousing, CRM, Payment Gateways, Black Box Testing, Elasticsearch, ChatGPT 3.5/4.
- References : CTO Tobias Dobberphul , tobias@dobberphul.de

Full Stack Web Developer

Ososs, Kuwait (Remote) [08/2021 – 11/2022]

Website: <https://ososs.com/en/>

- Developed and maintained various web applications, including an e-commerce builder and the main company website.
- Designed and implemented user interfaces, database administration, and security measures.
- **Technologies Used:** Laravel, React.js, Next.js, Vue.js, Nuxt.js, eCommerce, SPA, CMS, PHP, JavaScript, TypeScript, Express.js.

Full Stack Web Developer / Team Lead

Menarat Center, KSA (Onsite) [04/2018 – 07/2021]

- Utilized skills in both back-end and front-end development across a range of significant projects:

1. Learning Management System (LMS)

- Developed a Progressive Web App (PWA) for a group of schools in the Emirates.
- Provided a seamless learning experience for students and teachers.

2. Field Employee Tracking Management System

- Built a comprehensive system to track and manage field employees.
- Ensured efficient task assignment, progress monitoring, and location tracking.

3. Inmaa

- Developed a web application for a company specializing in electronic device and washing machine repairs.
- Streamlined operations and enhanced customer service.

4. Point of Sale (POS) Web Application

- Developed a multi-vendor, multi-store web application for a laundry business in the Emirates.
- Offered efficient inventory management, sales tracking, and customer management.

5. Accounting System

- Led a team of developers to build a proprietary accounting system for enterprise.
- Utilized Laravel and Vue.js frameworks.

- These projects showcased expertise in delivering effective solutions and demonstrated versatility across various industries.

- **Technologies Used:** Laravel, React.js, Vue.js, MySQL, Domain-Driven Design (DDD), Next.js, Bootstrap, Material CSS, MUI, Performance Optimization, Security, TypeScript.
