

## SUMMARY

Experienced Full-Stack Developer with 10+ years of expertise in web development, database design, and seamless integration. Skilled in managing projects from concept to deployment, ensuring high-quality outcomes in fast-paced environments. Proficient in building APIs, PHP, PHP frameworks, MYSQL, SQL Server database and JavaScript technologies, with a strong focus on delivering innovative, customer-centric solutions. With a degree in Computer Science and a passion for continuous learning, I thrive on staying at the forefront of technological advancements. I'm eager to take on new challenges, lead teams, and drive impactful projects forward.

## SKILLS

### Advance Knowledge:

- PHP
- Object Oriented Programming
- Laravel
- Symfony
- CodeIgniter
- Sass Application
- Unit Testing
- Blade, Twig and Smarty Template
- JSON
- MYSQL
- SQL Server
- Relational database
- JavaScript
- JQuery / AJAX
- Vue.js / Vuex
- Vue-router
- JSON
- Bootstrap
- CSS3
- HTML5
- RESTful API
- SOAP API's
- MAMP/XAMP
- Payment Gateways
- Third-party API
- RESTful Web Services
- Git / GitHub
- GitLab / SVN
- Code Review

### Intermediate:

- WordPress
- Yii2
- CakePHP
- Mongoddb
- ZenCart
- Prestashop
- AWS Cloud

### Basic:

- React
- Redux
- Python
- Django
- Node.js
- Express
- GraphQL
- MongoDB

### Other Technologies:

- Linux / Ubuntu
- MacOS / Windows
- Agile-Scrum
- Jira
- PhpStorm
- VS Code
- Sublime text
- Postman

## EXPERIENCE

### Full Stack Web Developer

Rexx Systems

01/07/2024 – 30/09/2024, Hamburg Germany

#### Responsibilities:

**API Integration:** Successfully integrated DocuSign API to streamline the contract signing process between the company and employees, automating document workflows and improving overall efficiency.

**Enhanced Events Calendar Performance:** Optimized query execution and request handling, leading to a 70% reduction in load times and significantly improving overall system responsiveness and user experience.

- Expertise in developing high-performance, scalable, and user-friendly web applications.
- Proficient in feature development, creating innovative, user-centric solutions.
- Dedicated to software maintenance, bug fixing, and ensuring system reliability.
- Strong commitment to quality assurance through rigorous testing and collaboration with cross-functional teams.

**Technologies:** Object Oriented PHP, (MYSQL), JavaScript, jQuery, Ajax, JSON, CSS, HTML, Docker, Gitlab,

### Full Stack Web Developer

Brombeer IT System

05/01/2022 – 05/01/2024, Abu Dhabi, United Arab Emirates

#### Responsibilities:

**Medical System:** Developed a medical system for air and non-air crew undergoing Annual (AME) and General Medical Examinations (GME). The system enabled nurses to manage appointments, doctors to handle prescriptions and patient care, and administrators to oversee operations and access controls.

- Led teams and manage tasks, ensuring effective prioritization and successful deployment of web applications.
- Identified and resolved bugs in existing applications, overseeing smooth migration processes when necessary.

- Conducted maintenance tasks and implemented new features, actively participating in scrum meetings to facilitate the release of updates.

**Technologies:** Object Oriented PHP, PHP frameworks (Laravel, Symfony), PHPUnit, Database SQL Server, JavaScript, jQuery, jQuery UI, Ajax, JSON, CSS, HTML, Version Control System SVN, LDAP integration, Nginx, Apache

### Full Stack Web Developer

AskVider Holding by (BTC Doha)

07/02/2019 – 05/01/2022, Dubai, United Arab Emirates

#### **Responsibilities:**

**Video Classified Web and Mobile Application:** Developed a video classified web application, designed and implemented APIs, and created database structures. Also built e-commerce web applications and developed blog platforms, ensuring seamless functionality and optimal performance.

- Spearheaded the development and deployment of web applications, ensuring seamless execution from conception to launch.
- Proactively addressed bugs and resolved issues within existing applications, overseeing smooth migration processes when required.
- Conducted regular maintenance tasks and implemented new features to enhance the functionality of applications.
- Facilitated the release of new features by actively participating in scrum meetings and collaborating with cross-functional teams.
- Orchestrated standups, prioritized tasks, and maintained APIs to support ongoing development initiatives.

**Technologies:** Object Oriented PHP, PHP frameworks (CodeIgniter, Laravel, Symfony, Yii2), CMS (WordPress) Theme and website development, Database MySQL, Payment Gateway Integration, JavaScript, VueJs, Vue-router, Vuex, jQuery, jQuery UI, Ajax, JSON, CSS, HTML, XML, Design implementation, Third Party API, Version Control System GitHub and BitLab.

### Senior Web Developer

Media Linkers LLC: USA base company

07/02/2015 – 11/01/2019, Islamabad, Pakistan

#### **Responsibilities:**

- spearheaded the development and deployment of web applications and e-commerce stores, ensuring adherence to industry best practices.
- Conducted rigorous bug fixes and issue resolution within existing websites and applications, overseeing seamless migration processes when necessary.
- Implemented ongoing maintenance procedures and integrated new features to optimize website and application performance.
- Contributed to the timely release of new features by actively engaging in scrum meetings, and meticulously prioritizing tasks to meet project deadlines.

**Technologies:** Core PHP, Object Oriented PHP, PHP frameworks (Code igniter MVC and HMVC, Laravel), E-commerce PrestaShop, CMS (WordPress) Theme and website development, MySQL, Payment Gateway Integration, JavaScript, JQuery, JQuery UI, Ajax, JSON, CSS, HTML, Third Party API, Version GitHub and Bit Bucket. SEO
