Certification

- Certified SAFe Agilist 5.0 (<https://www.youracclaim.com/badges/733e4e6c-b248-4fb4-9ff4-c67d000662ce>)
- Project Management Certification Course (<https://udemy-certificate.s3.amazonaws.com/image/UC-8f88c93b-bdc2-4fe1-935c-362f893e7494.jpg>)
- AWS Solutions Architect – Associate (<https://udemy-certificate.s3.amazonaws.com/image/UC-c3a37af5-8287-47d4-bcd0-10a7a21aefdb.jpg>)

Experience

JANUARY 2023 – PRESENT

Freelance | DimensionLab

APRIL 2021 – OCT 2022

System Engineer Manager (Development Manager) | 1rstWAP

JUNE 2014 – NOVEMBER 2020

Lead Software Engineer | Digital.ai (previously CollabNet)

APRIL 2010 – JUNE 2014

Team Lead | Wipro Infotech (Contract)

MAY 2007 - JAN 2010

Module Lead | Kumaran Systems

FEB 2006 - JAN 2007

Sr. Software Engineer | Migliore Web Community (Sulekha)

OCT 2003 - JAN 2006

Sr. Programmer | Kumaran Systems

JAN 2001 - SEP 2003

Developer | NatureSoft

Freelance | DimensionLab

Projects	Current Role
Siml.ai	Senior Developer, Product Roadmap

Responsibilities

- Developed & Managed the API Backend module and the Environment module which will train & inference Physics based AI surrogate models
- Involved in designing Product roadmap
- Cross-functional tasks with the core AI team
- Sprint Planning, Estimation, Assigning, Tracking, Status Reporting
- Knowledge Sharing
- Process adherence
- Prepare documents

System Engineer Manager | 1rstWAP

Projects	Current Role
DEVICE TRACING	Manage Development Team
SDLC	Define and Implement Process

Responsibilities

- Planning, Estimation, Assigning, Tracking, Status Reporting
- Defined & Implemented SDLC Process
- Mentor team and drive them towards strict process adherence
- Defined & baselined extensive process documents

- Demonstrate higher productivity with optimal usage of available resources
- Performed cross-functional tasks with Product Management, QA & DevOps

Lead Software Engineer | CollabNet

Projects	Current Role
TeamForge / CERT	Lead and Individual Contributor

Responsibilities

- Fullstack Software Development, Bug fixing, Code review
- Planning, Estimation, Assigning, Tracking, Status Reporting
- Scrum Master, Mentor Team
- Analyze, Troubleshoot and Fix Customer Reported Issues with minimal TAT
- Create Technical Competencies
- Customer Management
- Demonstrate higher productivity with optimal usage of available resources
- Represent team in various managerial platforms
- Performed cross-functional tasks along with QA, DevOps, ProdOps
- Created scripts for alerting based on various threshold besides troubleshooting on-prem customer issues
- Designed and Implemented Application Performance Monitoring system
- Designed Alerting Mechanisms and Resource Usage Monitoring Systems
- Performed cross-functional tasks along with QA, DevOps, ProdOps
- Worked with DevOps in designing the Build Pipelines and related tasks.

Technical Lead | Wipro Infotech (Contract)

Projects	Client Name	Role	Duration
Employee Portal	Mahindra Holidays & Resorts	Module Lead	OCT 2013–MAR 2014
Enterprise Search	UBS	Module Lead	MAY 2013 -SEP 2013
Knowledge Management Portal	Manipal University	Module Lead	JAN 2013-MAY 2013
Network Monitoring	IGCAR	Module Lead	AUG 2011–DEC 2012
Enterprise Search	Wipro Technologies	Individual & Lead Contribution	DEC 2010–DEC 2011
Enterprise Search – Building Competency	Wipro Infotech	Individual & Lead Contribution	APRIL 2010–SEP 2010

Responsibilities

- Acquired the FAST knowledge by self-driven learning process
- Conceptualized, Designed & Developed Enterprise Search PoCs
- Created & assembled Competency teams and Mentored them
- Provided end-to-end training ion FAST Technology
- Detailed design document.
- Requirements Analysis, Planning, Estimation Assigning, Tracking, Status Reporting for Onsite and Offshore Tasks.
- Architecture Design
- Client interactions (Offsite & Onshore) and handling customer tickets
- Coordinate in process improvement activities and mentor members to follow the processes.

Module Lead | Kumaran Systems

Projects	Client Name	Role	Duration
Digital Workflow	ISRO	Individual Contributor & Module Lead	AUG 2009–DEC 2009
AccessCare OCCAM TecNet	Nortel / Occam Networks	Individual Contributor & Module Lead	JUL 2007-JUNE 2009

Responsibilities

- Architected, Designed, Developed and implemented the Realtime Test initiation and process the result.
- Requirements Analysis, Planning, Estimation Assigning, Tracking, Status Reporting for Onsite and Offshore Tasks.
- Process related documents – Impact Analysis, Release notes
- Lead a team of 15
- Client interactions (Offsite & Onshore) and handling customer tickets
- Fullstack Software Development, Bug fixing, Code review
- Customer Management
- Involved in unit test case and technical approach document preparation.

Sr. Software Engineer | Migliore Web Community

Projects	Client Name	Role	Duration
Yellowpages Realestae Portal	Sulekha	Individual Contributor	FEB 2006–JAN 2007

Responsibilities

- Fullstack Software Development, Bug fixing, Code review
- Supervised and participated in the development and maintenance
- Define work plan and schedule for module development, deployment and maintenance
- Participation in Analysis, Design and Integration
- Environmental setup

Sr. Programmer | Kumaran Systems

Projects	Client Name	Role	Duration
National Institutes of Health WebNabler	United States, Federal Government	Individual Contributor	JAN 2003–JAN 2006

Responsibilities

- Fullstack Software Development, Bug fixing, R&D, Framework design and Code review
- Plan and schedule module development phase
- Coordinated with QA in Testing, Bug fixing & Product fine-tuning
- Enthusiastic participation in analysis and development of the parser for FORMS, the native front-end language for Oracle Database and Mapping of FORMS objects to WEB objects
