ABOUT ME

I'm a senior Node.js Fullstack Developer / Contractor / Freelancer with over **6+ years of experience**, only interested in remote work.

I use my passion, skills and experience to design and implement top of the line software solutions for online businesses worldwide.

Drop me a message if you think my expertise could help your organization!

MOST RELEVANT WORK EXPERIENCE

Senior Node.js Fullstack Developer   Jan 2024 - Present
Alpheya

The client, a leading provider of AI-powered wealthtech solutions, faced challenges with integrating open data architecture and meeting localized data privacy requirements.

■ **Improved system performance and security by 3x** with a star schema, optimized queries, and enhanced data retrieval. Implemented OAuth 2.0 for secure third-party access to user data.

Skills: Node.js, GraphQL, Fastify, ORM (Drizzle), PosgreSQL, Docker, AWS, React.js

Senior Node.js Fullstack Developer
Hellotess The client, one of the leading iPad POS systems in Germany, struggled to expand its gastronomy business due to the lack of mobile and web feature and more and more users wanted online systems.   Nov 2021 - Jan 2024

Increased revenue by 40% by integrating mobile and web functionality into existing frameworks. It has attracted a large number of new customers and strengthened its position as a market leader.

Boosted system utilization, functionality by 2x. This feat was achieved by meticulously designing the API and UI interfaces specifically optimized for online ordering features.
Skills: Node.js, Oauth2.0, Express.js, GraphQL, SQL, MongoDB, Microservices, Titanium SDK, React, Cross-platform, Docker, AWS

Senior Node.js Fullstack Developer
L'Oréal
The client, a leading supplier in the cosmetic industry in France, was dealing with low productivity among business employees as a result of an unstable, faulty and too basic application.   Sep 2019 - Nov 2021

Boosted business employees productivity by 5x by redesigning the backoffice of the application to make it more customizable as a business administration interface.

■ **Reduced application errors by 3x** by implementing code review for junior programmers and DRY design patterns for future tasks.
Skills: Node.js, Express.js, Microservices, Django, PostgreSQL, Docker, React.js
