Address: Damascus, Syria (Home)

● ABOUT ME

I am a Software Engineering Informatics Engineer with over 4 years of experience. Proficient in full stack development, specializing in backend and frontend technologies. Highly skilled in Angular and Node.js, with working knowledge of React. I am committed to continuously enhancing my skills and contributing to innovative tech projects.

● WORK EXPERIENCE

01/08/2024 – CURRENT Stockholm, Sweden

PROJECT MANAGER TEAM LEAD & SENIOR BACKEND DEVELOPER SVEASOFT

1. Lead analyst for the web development projects, responsible for analyzing system requirements and designing the ERD for databases.
2. Managed and directed the development team, ensuring tasks were executed efficiently and aligned with project goals.
3. Handled hosting and deployment of backend services, ensuring smooth updates and maintenance.
4. Acted as the senior backend developer, working with technologies like Node.js, NestJS, Mongoose, and AWS.
5. Played a key role in the development of **FraktFinder**, a logistics platform enabling users in Sweden to send shipments through third-party carriers like DHL, UPS, DSV, and FedEx, streamlining shipment processes for users across multiple countries

01/09/2023 – 04/2024 Qamishli, Syria

BACKEND DEVELOPER NESTECH

1. Contributed as a Backend Developer at NESTECH, specializing in backend development using Node.js with Nest.js.
2. Utilized SQL with Prisma for database management.
3. Collaborated closely with project stakeholders to understand their requirements and executed them effectively.
4. Led the complete implementation of significant projects, particularly in data analysis and organization for specific demographic groups. This enabled accurate and efficient statistical reporting, facilitated by my design of a robust database structure.
5. Personally supervised the execution of these projects to ensure their successful completion.

01/02/2020 – 01/04/2023 Istanbul, Türkiye

FULL STACK DEVELOPER GEEKINGS

Developed web applications as a Full stack Developer for Geekings over a span of 3 years.

1. Utilized Angular for frontend development and Node.js with Express for backend development.
2. Managed databases using MongoDB with TypeORM and Mongoose.
3. Primarily engaged with clients to comprehend their system requirements and executed them effectively.
4. Conducted maintenance on legacy websites for the company before my tenure.

Notable Projects:

- Hala Hotel: Developed and maintained Hala Hotel's website (<https://halahotelaquapark.com>).
- Cash Coin: Contributed to the development of Cash Coin's platform (<https://cashcoinusdt.com>).

- Trust Makine: Played a key role in the development of Trust Makine's website (<https://trustmakine.com>).
